

March 29, 2024 Meeting with Larry Lynch at PLPOA

Attendees: Becky, Mike, Laura, Marcus. Toni & Larry

Vista Garden

- Fan and vent installed. A trench will be dug to house electric from shed to greenhouse.
- Pavers will be used to create a path to the front gate.
- Water will be turned on near the end of April. (Plan B will be for a submersible sump to be placed deeper in the water.) A tank will be placed outside the greenhouse to water seed trays.
- Look into placing wedges under the seating board on the beds.
- Place chicken wire around the fruit trees. (Like a tree fence to deter moles.

PLPOA Garden

- The beds have been upgraded with 4 inch square corner posts at each corner and a 2 inch square placed midway on the outside of the bed.
- Marcus will check soaker hoses when the water is turned on.

In general:

- The group agreed to have Larry order a good quality shade cloth for the greenhouse.
- Toni will get a shopping list to Larry for garden supplies.
- Old tractor is available to us. Marcus will get a lesson on how to operate it.
